

Alternative Housing Delivery Models

The Camden Centre, Royal Tunbridge Wells, Kent

Wednesday 23rd May 2018

www.goodhomes.org.uk

Welcome

KEITH HARRISON, CHIEF EXECUTIVE

What are the aims of this event?

- GHA believes that Community Housing Projects can produce higher quality, more sustainable homes, communities and neighbourhoods.
- GHA has a membership network that contains high levels of non traditional housebuilding experience that produce high quality sustainable homes and we believe that a marriage between them and community housing groups could help projects deliver homes more quickly but without cutting corners on quality.
- GHA wish to create opportunities for innovative partnerships and networks involving community housing groups, GHA members, landowners (both public and private), appropriate enabling organisations, funders and the professional design and supply chain. This is the second event GHA have held on this subject and we hope to hold more across the country.

About the GHA

- Established in 2007
- Over 70 members (architects, planners, developers, universities, local authorities, urban designers, consultants, building professionals and suppliers)
- Aim to build and promote sustainable homes and communities and to transform the whole of mainstream UK house building into a sustainable endeavour
- Key themes for 2018/19: Quality of new homes; Alternative Housing Delivery Models; Overheating in New Homes Research; National Vanguard Campaign
