New native hedgerow
Pedestrian access to park
Allotments
Natural play
Wildflower meadow
To Overton cycle loop
Indicative Bike Park
Hedgerow enhancements
Informal Footpaths
Shared Pathway
Hinton House Drive Bridleway
Woodland buffer

HAB

SOPRANO PIPISTRELLE BAT

Bats already forage on the site, emerging after sunset and eating around three thousand insects in a night.

A new chalk meadow will give them a rich hunting ground for food. Bat bricks built into the walls of the new houses will encourage them to roost within the site itself.

SuDS, Space, Bins & Bikes

Fences

Village Green & Swale
